Dear
Ahmad Redi,

We have received the reports from our reviewers on your manuscript, "Responsive Law Enforcement In Preventing And Eradicating Illegal Mining In Indonesia" which you submitted to Journal of Law and Sustainable Development (Manuscript Number: 1436)

Your article requires minor revision. Find notes on the revision of your article in the attachment to this letter.

Reviewer 1

This article is very actual and interesting, but the author needs to show the novelty of this research. I think he novelty claim is still not that strong

Literature review needs to be strengthened to discuss problems.

The author must explain the method used in this study in detail until the data analysis

The results and discussion need to be compared with previous findings so that the novelty of this study is clearer

References need to be reproduced with the latest journals relevant to the research them

Reviewer 2

Abstract must be made in a solid, consisting of all essential things related to the written topic, not repeating the conclusions of the research you have done.

The discussion section must be deepened, the author must link the topics discussed with previous references.

Conclusions must be brief and clear explaining the core research findings.

Best regards,

Editor

Dear
Ahmad Redi,

Based on Reviewers' considerations, the article has, at some point, increased. However, you have to improve on a few more points. Hopefully, you are willing to do it. (Manuscript Number: 1436)

Please follow the following revision instructions:.

Reviewer 1

Abstract is too long and wordy, the abstract must be concise and interesting that shows the problems, objectives, methods and novelty of the research results.

The paper has some interesting information, and the topic is essential: however, there seem to be some basic questions suggesting flaws in the questionnaire which put the conclusions in question.

The wen study design comes into play there are serious questions about the system.

References need to be added to the latest relevant journal articles for at least the last 5 years.

Please make sure that your article refers to our Author Guidelines.

Reviewer 2

The discussion section must be deepened, the author must link the topics discussed with previous references.

Check author's names, affiliation and E-mail id of Corresponding author. If not given properly, give the same.

Good Luck!

Best regards,

Editor
